## FOREWORD

*Health Manpower Statistics* is published annually by the Office of the Secretary of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (WHS/DIOR), in support of the Office of Health Information Systems, Office of the Assistant Secretary of Defense (Health Affairs). This report provides a consolidated reference document for responding to numerous questions from the Administration, Congress, and others. It provides input for long range personnel planning models for the military departments and DOD personnel managers.

Requests for additional information should be addressed to the WHS/DIOR Special Projects Division, Room 1C535, The Pentagon, Washington, D.C., 20301, or call (202) 695-6815.

The contents of this publication may be reprinted without permission.

## INTRODUCTION

This issue of *Health Manpower Statistics* is the first annual publication containing data on health and medical personnel employed by the military departments within the Department of Defense (DOD). The publication is produced from a health manpower data base designed, established, and maintained by the Manpower Management Information Division (MMID) of the Washington Headquarters Services/Directorate for Information Operations and Reports (WHS/DIOR) in support of the Office of the Assistant Secretary of Defense for Health Affairs, OASD(HA).

Data are submitted annually,<sup>1</sup> as of the end of the fiscal year, by the military departments to the Director, Health Information Systems, OASD(HA), in accordance with DOD Instruction 7730.36. Data submitted by the Army (USA), Navy (USN), and the Air Force (USAF) on each of 32 different formats have been consolidated and are presented in this volume. Data include military personnel (both officer and enlisted) and civilian personnel.

The report includes comparison data for the end of the fiscal year by requirements and authorizations and assignments by corps level and selected specialties. Other formats present recruiting summaries, gains by program source, force strength projections, and extensive displays of rank, years of service, and primary and duty specialties for medical and dental officers. Education summaries show recruiting sources and projections for Armed Forces Health Professions Scholarship Program (AFHPSP) and graduate medical and dental education programs.
